

Building the infrastructure of the Metaverse

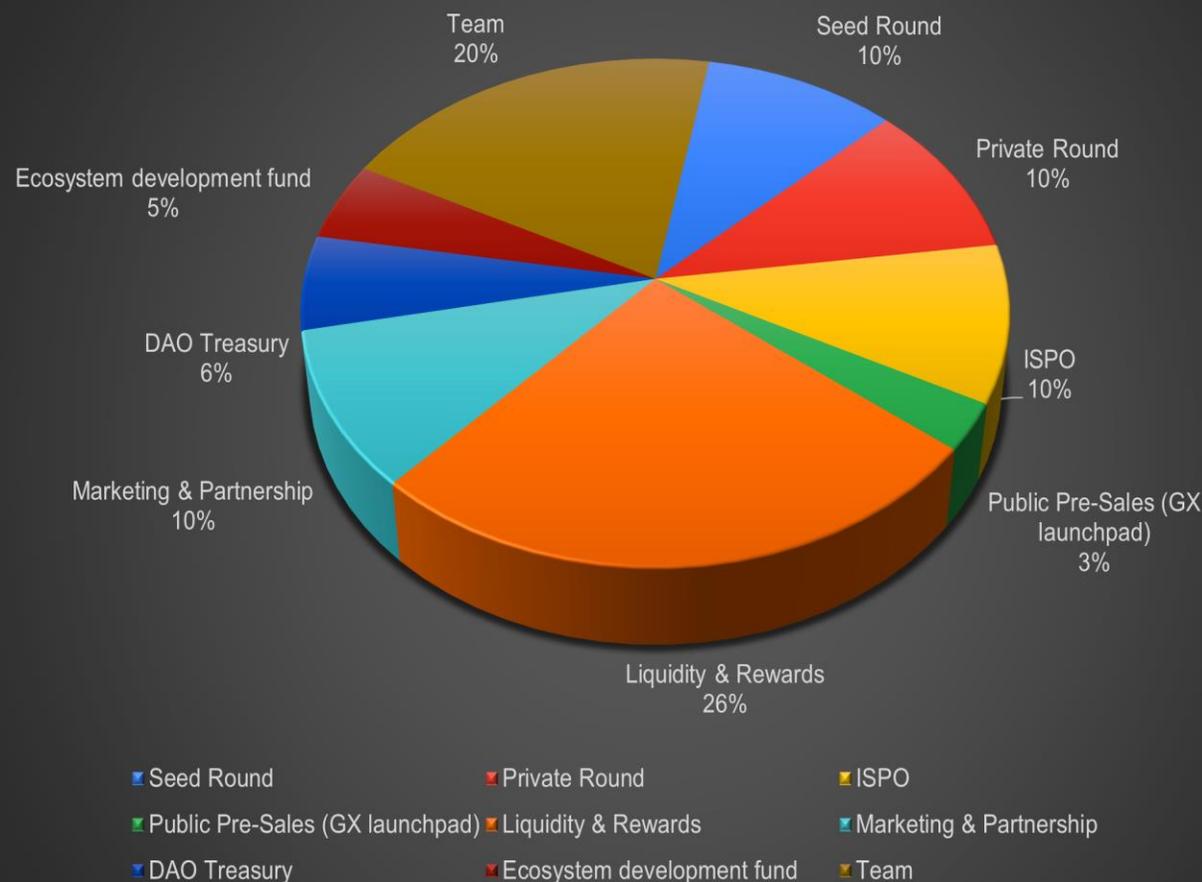

Reach Cloud is the Wix of the Metaverse. We are building the infrastructure and first hosting service for meta spaces. Currently hosting meta spaces for the healthcare, marketing, research, and education industries.

\$REACH Tokenomics

Total Supply: 500,000,000

Token Distribution:

- Seed round
- Private round
- ISPO
- Public pre-sale
- Team
- Marketing & Partnership
- DAO Treasury
- Ecosystem development
- Liquidity & Rewards

Token Distribution

- **Seed Round:** 10% of total tokens will be used to raise funds for the development of the accessibility of the metaverse. 10% of the token allocation will be unlocked for these participants at the Token Generation Event (TGE) followed by a 6-month cliff period with subsequent vesting for 24 months.
- **Private Round:** 10% of total tokens will be used to raise funds as a private investor round(s) to boost the development and features of the application. 10% of the token allocation will be unlocked for these participants at the TGE followed by a 6-month cliff period with subsequent vesting for 24 months.
- **ISPO:** 10% of total tokens will be used for the initial stake pool offering, which allows users to stake their ADA and receive the \$REACH tokens in return for their ADA staking rewards funding the project. 10% of the token allocation will be unlocked for these participants at the TGE followed by a 3-month cliff period with subsequent vesting for 12 months.
- **Public pre-sale:** 3% of the total tokens will be made available utilizing the Genius X launchpad for an Initial DEX Offering (IDO). The public sale of the Reach tokens will occur shortly before the TGE.
- **Team:** 20% of total tokens will be allocated to the team to ensure the long-term commitment and retention of key members for the project. 1% of the token allocation will be unlocked for the team at the TGE followed by a 6-month cliff period with subsequent vesting for 36 months.

- **Marketing & Partnering:** 10% of total tokens will be allocated to bring in marketing partnerships or other projects into the ecosystem. 5% of the token allocation will be unlocked at the TGE followed by a 1-month cliff period with subsequent vesting for 36 months.
- **DAO Treasury:** 6% of total tokens will be allocated and used only for the purpose of making the application and the metaverse completely decentralized. 5% of the token allocation will be unlocked at the TGE followed by a 1-month cliff period with subsequent vesting for 36 months.
- **Ecosystem Development:** 5% of total tokens will be allocated to be used for the development of the ecosystem and transactions within the ecosystem. 5% of the token allocation will be unlocked at the TGE followed by a 1-month cliff period with subsequent vesting for 24 months.
- **Liquidity and Rewards:** 26% of the total tokens will be used to support liquidity or utility of the ecosystem and some portion of the token allocation will be airdropped for free to the users of our Condo and Land NFTs as a thanks for support and belief in the project from its early stage. These tokens will be introduced into the metaverse and its applications through liquidity mining, liquidity pools on DEXs, and other mechanisms. 3% of the token allocation will be unlocked for these participants at the TGE with subsequent vesting for 48 months.

The logo for REACH features the word "REACH" in a white, sans-serif font. The letter "E" is replaced by a blue icon consisting of three stacked, upward-pointing chevrons. The background of the entire image is a complex network of thin, light-colored lines connecting numerous small, semi-transparent nodes in shades of gold and brown, creating a digital or network-like aesthetic.

REACH

Utility

Holders of the \$REACH Token will have access to a wide range of activities within the ecosystem which include but are not limited to access to some private worlds, entry into special events, and competitions within the ecosystem hosted by Reach or other partners in the ecosystem.

- Creation of a staking program to redistribute 15% of the Reach Metaverse revenue.
- Purchasing and trading of Reach assets (Eg. Land NFTs, Condos NFTs, ect).
- Additional \$Reach token utilities will be announced in the future.

These tokens can be acquired through various ways as mentioned in the distribution above. The distribution and modeling of the token is done in a way to ensure that the token remain stable and usable. As more utilities and features of the token will be introduced to the ecosystem as it progresses, announcements will be made to maintain the transparency of the tokenomics.

REACH

Summary

Reach Metaverse is the flagship product of the Cardano-based blockchain platform-the Reach Cloud. The Reach Metaverse is a metaverse capable of shared spaces, stores, commerce, games, social interaction, digital real estate, and land ownership. Using a digital avatar, users will be able to travel and explore Reach's four continents, having unique experiences in different cities. Users will be able to access the Reach Metaverse from their PC, VR headset, mobile, and web browser.

Reach Cloud is the hosting service platform, which will allow the creation of "meta spaces." Meta spaces are essentially mini metaverses designed by users using the popular Unity SDK. Creators will be able to upload their worlds straight from the Unity Engine instead of going through the process of creating their own metaverse, which takes significant time and resources. Reach Cloud will provide entities or businesses with the infrastructure so they can create customized meta spaces for topics such as travel or provide business services in exchange for a monthly fee. Reach Cloud is currently hosting meta spaces for the healthcare, marketing, research, and education industries.

Legal Statement & Disclaimer: The primary purpose of the \$REACH tokens is utility, which allows the holders to participate in various ways in the Reach Ecosystem. Reach Cloud makes no commitments or promises regarding the future valuation of these tokens. This document is not intended as any form of contract, investment advice or otherwise, as such we reserve the right to make amendments should the need arise.
